

# Hatch & Portlight

## How to find your lens code

All Lewmar hatches and portlights (except old Standard) produced since October 1997 have had identification information stamped on the acrylic. On Portlights and Fixedlights the information is under the LEWMAR branding. On hatches the information is between the right hand handle and the edge of the acrylic.

### Identifying the range name & hatch size

For Hatches: Ocean, Coastline, Trimport, Trimline or Concept

For Portlights: Standard (New Standard only), Atlantic, Ocean or ASTAR (Hallberg Rassy only)

There are three different formats:

On some Lewmar hatches you may need to peel back the seal slightly to reveal the code.

The size is abbreviated as **SZXX**, for example :

SZ60 = Size 60 hatch

For portlights the 2 digits used are the 4th and 5th digits of the part number. The 1st digit denotes the size, the 2nd the configuration. For example:

SZ42 = Size 4 New Standard opening portlight

SZ41 = Size 1 New Standard Fixed light

A number in the form **399SSXR**

**SS** is the hatch size

**X** is the acrylic colour: 0 - grey, 2 - clear, 3 - white, 4 - green, 6 - frosted, 8 - dark grey

**R** is the Range: 3 is Low Profile and 2 is Medium Profile

On Mark 2 Low & Medium Profile hatches the number is preceded by 'A'.

A number in the form **300XXX**. This is the first 6 digits of a hatch or portlight custom product part number.

### Identifying the date of manufacture

This appears at the end of the code, in the form **DDMY** (for example 11J7) where the letter code for the month is:

A - January

B - February

C - March

D - April

E - May

F - June

G - July

H - August

J - September

K - October

L - November

M - December

The letter I "India" is not used

There are some features that the coding does not identify. For example:

- Frame finish / colour
- Friction Lever or power boat Stay
- If accessories such as Lock & Key Kit and Vent are fitted

This information, and an acrylic code identifier, are available at
