

Jabsco Ballast Pumps

SOLUTIONS FOR WAKEBOARD AND SKI BOAT WATER BALLASTING SYSTEMS

Ballast SuperKing

When you're having fun on a wakeboard, skis, or a tube, a bigger wake will create a more exhilarating ride. Xylem's Jabsco ballast pumping systems, including the Ballast Puppy, Ballast King, and Ballast SuperKing, make taking on weight easy with tanks that rapidly fill at the touch of a button. Systems can be emptied quickly as well.

FEATURES

- Run dry impellers
- Flow rates 9-25 gallons per minute (GPM) or 34-95 liters per minute (LPM)
- Adds approximately 80-200 pounds (36-91 kgs) of ballast water per minute
- Self priming to 3 or 4 feet (0.9 or 1.2 meters)
- All comply with USCG 183.410 and ISO 8846 Marine (Ignition Protection)
- Reversing Polarity Switch available (Puppy and King products only)
