SHAKESPEARE 6187 EASY ADJUST STAINLESS STEEL RATCHET MOUNT

The all new 6187 is made to the same high specifications as all the Shakespeare mounts.

Electro Polished 3-16 Stainless steel ensures long-lasting strength in all conditions.

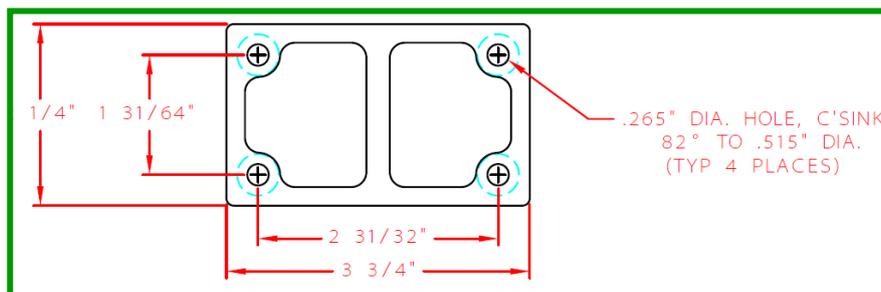

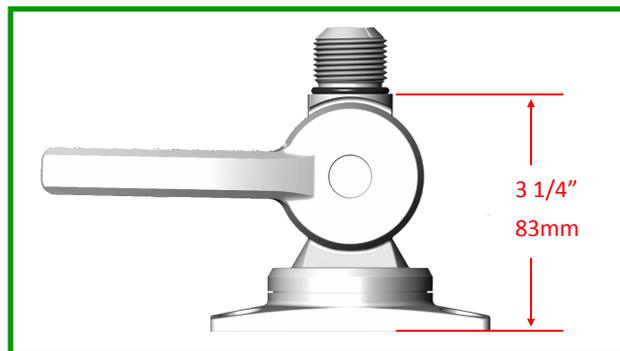

Through its clever design, the 6187 has one single ratchet handle, which allows users to lower and twist the mount in one simple manoeuvre, moving the antenna through a full hemisphere of points to its required location without the need for additional tools, time or support.

The 6187 is also much reduced in size, and offers a much sleeker and more aesthetically pleasing appearance than the comparable options.
